

Turbo Rim Diamond Saw Blade

This diamond cutting blade is designed for fast, clean cuts on marble and granite. It features a turbo rim and is suitable for use with angle grinders.

Product Overview

Professional Diamond Cutting Performance

This premium diamond saw blade features a specialized turbo rim engineered for rapid, clean cuts through tough materials like marble and granite. Designed for reliability and high-speed operation, it integrates seamlessly with standard angle grinders. Its robust construction ensures consistent performance for professional masonry and construction applications.

Technical Specifications

Blade Diameter	115 mm
Bore Diameter	22.2 mm
Maximum Speed	13000 RPM

Usage Information

Compatible Tools

- Angle Grinders

Compatible Materials

Marble, Granite
