

# Turbocharger Center Housing for HY40V HE400VG

This center housing is designed for HY40V and HE400VG turbochargers. It provides structural support and precise alignment for the rotating assembly.

## ADDITIONAL IMAGES

## Product Overview

### Precision-Engineered Center Housing

This center housing is designed specifically for HY40V and HE400VG turbocharger models. It serves as a critical structural component, providing the necessary support and precise alignment for the rotating assembly to ensure optimal performance. Built to withstand high-temperature and high-pressure environments, this housing is engineered for durability and reliable operation in demanding conditions.

## Technical Specifications

### Part Identification

Type	Identifier
Part Number	H4020022
OE Number	4041110H

Compatible Models	HY40V, HE400VG
Cooling System	Water-cooling
