

Turbocharger for Bulldozer

This turbocharger is designed for bulldozer engines, enhancing their performance. It optimizes air intake, leading to improved power output and efficiency.

Product Overview

High-Performance Turbocharger

This turbocharger is engineered to optimize engine performance by increasing air intake, leading to improved power output and operational efficiency. Designed for heavy-duty bulldozer applications, it ensures reliable operation and long-lasting durability under demanding conditions. It serves as a direct replacement for specific engine models, maintaining consistent power delivery.

Technical Specifications

Maximum Power

302 kW
Power

405 HP
Power

Engine Displacement	19.2 L
Maximum RPM	2000 RPM
Fuel Type	Diesel

Compatibility

Turbocharger Details

Attribute	Value
Turbo Model	S500R
CHRA	319255
Equipment Model	KTR130-9G2

Supported Applications

- Bulldozer D355-3
- Engine S6D155-4A
- Engine SA6D155-4A-35

Compatible Part Numbers	6502-12-9005, 6502129005, 6502-12-9003, 6502-12-9004, 319032
