

Twin Tub Washing Machine, 6.5 kg Capacity

This twin-tub washing machine is designed for efficient and convenient laundry care. It has separate tubs for washing and spin-drying, enabling simultaneous operation and reduced washing time.

Overview

Efficient Twin-Tub Design

This twin-tub washing machine offers a high-capacity 6.5 kg solution for everyday laundry requirements. With separate washing and spin-drying compartments, users can perform tasks simultaneously to save time and energy. Its compact design is specifically engineered for efficient use in small to medium-sized spaces without sacrificing performance.
