

Twin Tub Washing Machine with Air Dry

This washing machine features a twin tub design for separate washing and spinning. It is equipped with adjustable wash and spin timers along with an air dry function.

Overview

Efficiency Meets Versatility

This twin tub washing machine offers a practical solution for flexible garment care. With a 7kg washing capacity and a 5.5kg spin capacity, it handles small to medium household laundry needs with ease. The design features transparent covers for real-time monitoring and includes a specialized air dry function for enhanced fabric drying.
