

Two-Burner Gas Cooktop

This gas cooktop features two burners for efficient cooking. Its stainless steel surface and multi-ring burner design ensure even heat distribution.

Overview

Professional Two-Burner Gas Cooktop

This high-performance two-burner gas cooktop is designed for modern kitchen environments, offering a durable stainless steel surface that ensures both longevity and ease of maintenance. The unit features advanced multi-ring burner technology, which provides superior heat distribution for consistent and precise cooking results. With intuitive control knobs for fine-tuned flame intensity, this cooktop is an ideal solution for commercial or upscale residential culinary applications.

Technical Specifications
