

Two-Door Compact Refrigerator

This is a compact refrigerator with two doors. It features a smaller freezer compartment on top and a larger refrigeration compartment below, suitable for smaller spaces.

Product Overview

Compact Two-Door Refrigeration Solution

The BCD-136T is a functional and space-saving two-door refrigerator designed for efficient food storage. It features a top-mounted freezer compartment and a spacious lower refrigeration section. With its clean pearl white finish, this compact appliance integrates seamlessly into smaller residential or professional kitchen environments.
