

UHF Wireless Handheld Microphone System

This is a UHF wireless microphone system. It is a single channel microphone with advanced technology.

System Overview

Professional Wireless Audio Performance

This UHF wireless handheld microphone system delivers reliable audio reinforcement for live performances, presentations, and events. Featuring a dual-channel metal receiver with independent volume controls and a clear LCD frequency display, the system ensures stable connectivity and high-quality sound reproduction. Its robust design and long battery life provide the versatility and endurance required for demanding professional applications.

Key Performance Metrics

Performance Highlights

60 m

Operating Range

90 dB

Dynamic Range

10 hours

Max Battery Life

Technical Specifications

Frequency Range	600-900MHz
Frequency Response	40Hz-20kHz
Total Harmonic Distortion	< 0.5%
Signal to Noise Ratio	98 dB

Hardware & Power

Receiver Power Supply	AC 100-240V, 50/60Hz
Microphone Battery	2 x AA 1.5V
Transmitter Output Power	10 mW
Construction Materials	Metal Receiver, Plastic Handheld
