

Ultrasonic Aroma Diffuser with 700ml Capacity

This ultrasonic aroma diffuser uses high-frequency vibrations to create a fine mist, dispersing essential oils and adding moisture to the air. It features multiple LED color options for a customizable ambiance and automatic shut-off when the water level is low.

Product Overview

Professional Ultrasonic Aroma Diffuser

This high-capacity 700ml ultrasonic aroma diffuser is designed for effective aromatherapy and humidification in professional and home environments. Using advanced 2.4MHz ultrasonic technology, it disperses essential oils into a fine, adjustable mist without the use of heat, preserving their therapeutic properties. With a versatile timer, safety-focused auto-shutoff, and a durable PP construction, it provides a reliable solution for creating a soothing atmosphere in spaces up to 40 square meters.
