

Unfinished Lumber Boards

These are light-colored, unfinished lumber boards stacked horizontally. The rough-sawn wood grain is visible and the stack is held together with metal bands.

Product Overview

High-Quality Unfinished Lumber

These unfinished lumber boards are ideal for a variety of construction and woodworking projects. Featuring a natural, light-colored wood grain with authentic knots, these rough-sawn boards provide a rustic aesthetic suitable for structural or decorative applications. The lumber is securely bundled with metal bands to ensure stability and ease of transport for industrial or commercial use.
