

Universal Flange Adapter for Dissimilar Pipes

This universal flange adapter connects flanged pipe systems of dissimilar materials or sizes. It provides a leak-proof seal and accommodates variations in pipe alignment.

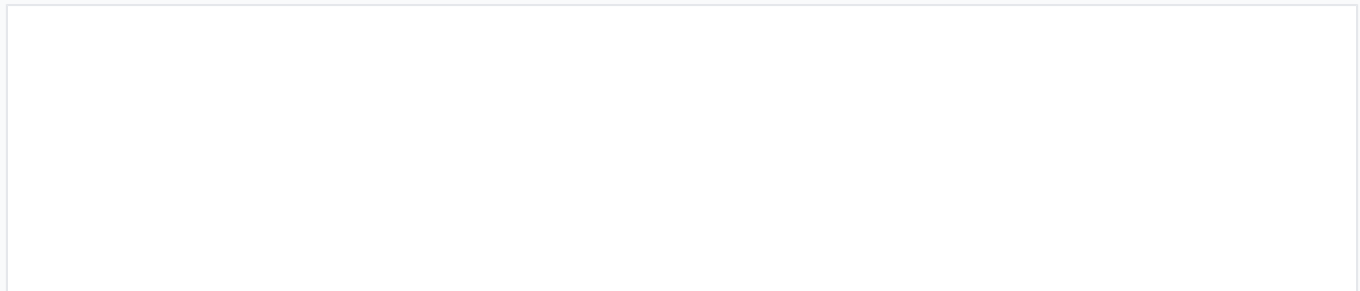

Product Overview

Universal Flange Adapter for Dissimilar Pipes

The Universal Flange Adapter is a high-performance mechanical fitting engineered to securely connect flanged pipe systems of varying materials and sizes. Designed for versatility and ease of use, it ensures a leak-proof seal while accommodating minor pipe alignment variations. Its robust construction and protective coating make it an ideal choice for reliable, long-term operation in demanding fluid pipeline environments.

Technical Specifications

Universal flange design providing flexible and leak-proof connections for diverse piping systems.

Material	Iron
Technics	Casting
Type	Coupling
Connection	Flange
Head Code	Round
Surface Protection	Fusion bonded epoxy, FBE coated

Compliance and Logistics

Monthly Supply Ability

800 Ton
