Product Overview

Versatile Universal Control

The URC5500 is a high-performance, multi-function remote control designed to consolidate control for a wide array of home entertainment devices including TVs, SAT, DVD, VCR, and auxiliary equipment. By integrating the latest device codes and dedicated shortcut buttons for streaming services like Netflix, Amazon, and YouTube, it ensures modern connectivity for both legacy and current models. Its ergonomic design and built-in learning function provide a simple, comfortable user experience for diverse professional and consumer needs.
