Product Overview

Professional Upright Freezer Solutions

This upright freezer is designed for both home and commercial use, featuring advanced fast-freeze technology to preserve food quality longer. It utilizes concentrated foaming techniques to maximize internal storage capacity within a compact footprint. With an emphasis on energy efficiency and low-noise operation, it serves as a reliable and cost-effective cold storage solution.

Technical Specifications

Model Number	BD-180U
Capacity	180 L
Climate Class	N-T
Compressor/Refrigerant	R600a/R134a

Logistics

Packing Dimensions	580*585*1480 mm
Minimum Order Quantity	1 x 40HQ
Loading Capacity	142 PCS / 40HQ
