

Upright Vacuum Cleaner for Hard Floors and Carpets

This upright vacuum cleaner features a transparent dustbin to monitor fill levels and a long handle for easy maneuverability. Its compact base allows for cleaning under furniture, making it suitable for hard floors and carpets.

Product Overview

Professional Cleaning Performance

This upright vacuum cleaner is engineered for versatile use across both hard floors and carpeted surfaces. With its slim, maneuverable design and transparent dustbin, it allows for efficient maintenance and visibility of fill levels. The compact footprint makes it an ideal solution for cleaning tight spaces and under furniture in professional environments.
