

Urban Commuter Motorcycle

This motorcycle is a fuel-efficient mode of transportation designed for urban environments. It features a step-through frame and a single-cylinder engine, making it suitable for city commuting.

Product Overview

Efficiency in Urban Travel

The WIN100 is a compact, fuel-efficient motorcycle engineered specifically for the challenges of urban environments. Featuring a convenient step-through frame, it provides ease of use for riders mounting and dismounting in busy traffic. It is a reliable and economical solution for daily transportation, combining practical cargo capabilities with essential safety features.
