

Urban Commuter Motorcycle with Step-Through Frame

This motorcycle is designed for urban commuting and short-distance travel. Its step-through frame allows easy mounting and dismounting, while a single-cylinder, air-cooled engine ensures reliable performance and fuel efficiency.

Overview

Urban Commuter Motorcycle

The JL110-6 is a compact and efficient motorcycle specifically engineered for urban commuting and short-distance travel. Its step-through frame design allows for effortless mounting and dismounting, ensuring a comfortable experience for daily riders. Powered by a reliable single-cylinder, air-cooled engine, this motorcycle balances performance with fuel efficiency, making it an ideal solution for navigating city environments.
