

Urban Commuter Motorcycle with Step-Through Frame

This step-through motorcycle is designed for efficient urban commuting. It features a front basket, chrome exhaust, and rear luggage rack.

Overview

Urban Commuter Motorcycle

This step-through motorcycle is engineered specifically for efficient urban commuting, offering a low seat height for ease of use and maneuverability in city traffic. Equipped with a reliable four-stroke small displacement engine, it prioritizes fuel economy and low maintenance costs. The design includes practical utility features such as a front basket and rear luggage rack, making it an ideal solution for daily transport and light cargo delivery.
