Product Overview

High-Speed USB 3.0 Connectivity

This USB 3.0 data transfer cable is engineered to deliver high-performance connectivity, offering speeds up to 10 times faster than legacy USB 2.0 standards. It supports efficient 5.0 Gbps data transmission rates while maintaining full backward compatibility with older devices. Designed for robustness and reliability, this cable is an ideal solution for connecting peripherals and high-speed data transfer needs.

Technical Specifications

Max Data Rate

5 Gbps

Transmission Speed

Compliance

EMI Dry Flex Requirements Met

Compatibility

USB 3.0, USB 2.0 Backward Compatible

Design & Construction

Supported Connectors

- USB Type-A
- USB Type-C

Design Features

- Robust molded housing
- Streamlined design
- High-durability cable end
