

USB Powered 2.0 Channel Speaker System

This 2.0 channel USB speaker features a simple and elegant design. The integrated design includes a subwoofer and satellite speakers, with an elevation angle for enhanced sound in near field environments.

Product Overview

Compact USB-Powered Audio Solution

This 2.0 channel speaker system offers a convenient and space-saving audio solution for desktop and laptop computers. Powered directly via USB, it eliminates the need for bulky external power adapters, making it ideal for clean, minimalist workspaces. With a 2.5W output per channel and a frequency response range of 100Hz to 20KHz, it provides clear, reliable sound for everyday multimedia use.
