

USB Type-A to USB Type-C Data Cable

This USB Type-A to USB Type-C cable is designed for data transfer and charging. It features a standard USB Type-A connector on one end and a USB Type-C connector on the other end, making it suitable for connecting modern devices to computers or chargers.

Product Overview

Reliable Connectivity Solution

This USB Type-A to USB Type-C data cable is designed for seamless data transfer and efficient charging between modern devices and legacy USB-A ports. Built with durable materials, it ensures consistent performance for professional environments. It serves as an essential accessory for connecting smartphones, tablets, and peripherals to computers or power adapters.
