

Vacuum Cleaner Disposable Dust Bag

This disposable dust bag is designed for vacuum cleaners. Constructed from durable paper, it provides efficient filtration and containment of dust and debris.

Product Overview

High-Efficiency Filtration

This disposable dust bag is engineered to ensure efficient containment of dust and debris during vacuuming operations. Constructed from durable paper material, it provides a reliable solution for maintaining hygiene in both professional and residential cleaning environments. The design incorporates a reinforced cardboard collar to ensure a secure, airtight fit to the vacuum cleaner's intake port.

Technical Specifications

Usage

Disposable

Material Composition

Durable paper

Mounting Features

Reinforced cardboard collar, Standard circular opening
