

Vacuum Cleaner Dust Collection Bag

High-efficiency dust collection bag designed for vacuum cleaners. This bag provides superior filtration, trapping fine particles and allergens for cleaner air.

Product Overview

High-Efficiency Filtration

This high-efficiency dust collection bag is designed to provide superior filtration by trapping fine particles and allergens, ensuring cleaner indoor air quality. It is constructed from durable, tear-resistant materials that ensure extended product lifespan even under regular use. The bag features a secure collar design to facilitate easy installation and removal while preventing accidental dust leakage during disposal.

Technical Specifications

Material Characteristics	Durable, Tear-resistant, High-filtration
Installation	Secure collar attachment for leak-proof maintenance
Compatibility Notes	Dimensions and capacity are calibrated based on specific vacuum cleaner model requirements
