

Vacuum Cleaner Wand Handle with Angled Grip

This is an angled vacuum cleaner wand handle. It features a black plastic grip connected to a chrome-plated metal tube for comfortable use with various attachments.

Product Overview

Ergonomic Cleaning Solution

This vacuum cleaner wand handle features an angled grip designed to improve comfort and control during extended cleaning sessions. The construction combines a durable black plastic grip section with a sturdy chrome-plated metal tube, ensuring both longevity and a professional finish. It is engineered to seamlessly connect to standard vacuum cleaner hoses and attachments, making it a versatile component for various cleaning tasks.
