Product Overview

Professional Vacuum Pore Cleaner

This advanced handheld vacuum pore cleaner is designed to effectively remove blackheads, whiteheads, and dead skin cells using gentle vacuum suction technology. Featuring multiple interchangeable heads, it caters to various skincare needs, from exfoliation to firming and lifting. The device is rechargeable, ergonomic, and suitable for integrating into professional or personal skincare routines to promote clearer, smoother, and more vibrant skin.

Device Features

Interchangeable Heads

- Microcrystalline head: Exfoliates dead skin and brightens the complexion
- Great circle hole: Strong suction for blackhead removal and facial contouring
- Small round hole: Gentle suction for delicate skin areas
- Elliptic hole: Firming and lifting action to reduce fine lines

Control Interface

Power Button, Mode Selection, Display Screen

Usage Guidelines

Safety Precautions

- Keep the device moving during use
- Do not stay in one place for too long to avoid skin redness or purple marks
- Use appropriate suction levels for delicate skin areas
