

Vacuum Pump

This vacuum pump is designed for efficient air evacuation in a variety of industrial applications. Its robust construction ensures reliable performance and long service life.

Product Overview

Professional Double Induction Cooktop

This advanced double induction cooktop provides two independent cooking zones, offering precise temperature control for diverse culinary applications. Featuring a durable black ceramic glass surface, it ensures efficient heat transfer while maintaining an easy-to-clean design. Engineered with built-in installation in mind, it includes essential safety features like automatic shut-off and residual heat indicators to ensure a secure working environment.

Technical Specifications

Cooking Zones	2
Surface Material	Ceramic Glass
Installation	Built-in

Safety & Control

Safety Features	Automatic Shut-off, Residual Heat Indicator
Control Interface	Touch Controls
