

Variable Speed Angle Grinder

This angle grinder is a versatile power tool designed for grinding, cutting, and polishing various materials. It features a variable speed controller, a spindle lock for easy disc changes, and a soft grip for comfortable handling.

Overview

Versatile Variable Speed Angle Grinder

This professional-grade angle grinder is engineered for precision grinding, cutting, and polishing tasks across a variety of materials. Featuring an integrated variable speed controller, it allows operators to fine-tune performance for specific applications, ensuring optimal results. Designed with user comfort and efficiency in mind, the tool includes a secure spindle lock for rapid disc changes and an ergonomic soft grip handle for extended use.

Technical Specifications

Available Power Ratings

- 900W
- 1050W
- 1200W
- 1300W

Rated Voltage: 230V / 120V

Frequency: 50/60Hz

Performance Metrics

No-Load Speed

12000 r/min
Max Speed

Compatible Disc Diameters: 115mm, 125mm

Features

Key Features

Variable Speed Control • Spindle Lock • Soft Grip Handle
