

Variable Speed Impact Drill

This impact drill is designed for drilling into various materials, including wood, metal, and concrete. It features variable speed control for precision and a comfortable grip for extended use.

Product Overview

Professional Impact Drilling Performance

This high-performance impact drill is engineered for versatility and power, making it an essential tool for drilling into wood, metal, and concrete. It features a robust motor designed for demanding applications, ensuring reliability on the job site. With variable speed control, professionals can achieve the precision needed for delicate tasks, while the ergonomic design provides comfort during extended use.

Technical Specifications

Chuck Capacity	13 mm
Control Features	Variable Speed Control, Side Handle, Keyed Chuck

Applications

Compatible Materials

- Wood
- Metal
- Concrete
