Product Overview

Professional Performance and Versatility

This professional-grade random orbital sander is engineered for efficient and smooth surface preparation across various applications, including woodworking and automotive refinishing. It features precise variable speed control, allowing operators to optimize performance for specific material types. Designed with user comfort in mind, the tool incorporates an ergonomic soft grip and an integrated dust extraction system to maintain a clean and productive work environment.

Key Features

Core Functionalities

- Variable speed control for material-specific sanding
- Velcro fixing system for rapid abrasive changes
- Integrated dust extraction system
- Ergonomic soft-grip handle for extended comfort

Dust Management

Dust bag included, Vacuum cleaner compatible
