

Variable Temperature Hot Air Gun Kit

This hot air gun features two heat settings to accommodate a wide variety of jobs. Its coil design heats materials quickly.

Overview

Versatile Heat Application

This variable temperature hot air gun kit is designed for a wide range of professional and DIY tasks, including paint stripping, varnish removal, and heat shrinking. Featuring a superior coil design, it provides rapid heating and consistent performance for demanding applications. With integrated over-heat protection and a convenient hanging hook, this tool is built for both safety and ease of use in stationary or handheld scenarios.
