

VDE Certified Power Cord

This power cord is suitable for various electric appliances compliant with VDE standards. It features a VDE plug for European use.

Product Overview

Professional VDE Certified Power Cord

This European standard power cord is engineered for safety and reliability in electrical applications. It features a 2-pole design without earthing contact and adheres to strict VDE0620 and IEC60884 standards. Designed for high-performance connectivity, this cord is an ideal choice for diverse electrical appliances requiring 16A and 250V power specifications.
