

Vehicle Shock Absorber

This shock absorber is designed for optimal vehicle suspension and ride comfort. It features durable construction with a coil spring and hydraulic damping system for enhanced stability and control.

Product Overview

Cabin Shock Absorber for Heavy-Duty Trailers

This cabin shock absorber is engineered specifically for 9T trailers, providing essential suspension support and ride comfort. Featuring a robust combination of a coil spring and a high-performance hydraulic damping system, it effectively mitigates road vibrations. The unit is designed to enhance vehicle stability, improve handling precision, and offer long-lasting durability in demanding automotive applications.

Technical Specifications

Compatibility	9T Trailer
Damping Type	Hydraulic

Construction & Finish

Surface Finish	Black (Corrosion Resistant)
Key Features	Coil Spring, Corrosion Resistant, Vibration Reduction, Enhanced Stability
