Product Overview

Professional Ventilator Motor

This high-performance motor is engineered for use in various ventilator and exhaust fan systems, particularly within air conditioning units. It offers versatile customization options regarding performance, physical dimensions, and color to meet specific installation requirements. With a robust design, it serves as a reliable solution for both new ventilation installations and maintenance replacements.

Technical Specifications

Performance Range

40 W

Maximum Output Power

1400 rpm

Maximum Speed

Voltage and Frequency Configurations

| Voltage (V) | Frequency (Hz) | Power (W) | Speed (rpm) |
|-------------|----------------|-----------|-------------|
| 110 | 50 | 5-40 | 800-1400 |
| 110 | 60 | 5-40 | 800-1400 |
| 220 | 50 | 5-40 | 800-1400 |
| 220 | 60 | 5-40 | 800-1400 |
| 230 | 50 | 5-40 | 800-1400 |
| 240 | 50 | 5-40 | 800-1400 |

Product Features

Applications

- Air conditioning units
- Ventilation systems
- Exhaust fans
