

Vertical Band Saw for Fabric Cutting

This vertical band saw is designed for cutting fabric and similar materials. It features a vertically mounted motor and a handle for controlled operation.

Product Overview

Precision Industrial Cutting

This vertical band saw is engineered specifically for high-precision fabric cutting in industrial and manufacturing environments. Featuring a robust motor mounted on a vertical support, it ensures consistent performance and stability during operation. The ergonomic handle design allows for controlled, accurate cuts, making it an essential tool for streamlining production workflows.

Technical Specifications

Construction

Vertical Support • Motorized

Design Type

Vertical Band Saw

Primary Application

Fabric Cutting, Industrial Manufacturing, Precision Cutting

Operation Mode

Manual with ergonomic handle
