Product Overview

VS150 Vertical Emery Roll Rice Whitener

The VS150 vertical emery roll rice whitener is designed for high-efficiency rice processing in plants with a capacity of 100-150 tons per day. By optimizing the mechanical advantages of vertical emery and iron roll designs, this machine ensures high output with low breakage rates. Its simple operation and wide range of application make it an ideal core component for modern rice milling facilities.

Performance Specifications

Daily Processing Capacity

100 T/D

Minimum Capacity

150 T/D

Maximum Capacity

Key Advantages

High Capacity, Low Breakage Rate, Efficient Bran Removal, Compact Design, Modular Configuration

Operational Details

System Compatibility

- Single unit operation
- Multi-unit joint processing
- Optimized for super finished rice production
