Product Overview

High-Performance Roller Assembly

This vertical roller mill assembly is engineered for heavy-duty grinding operations in mining and industrial applications. Designed to offer a 10% longer lifespan compared to similar domestic alternatives, these components provide a cost-effective, high-performance replacement for imported parts. The assembly is built for durability under demanding conditions, ensuring consistent milling efficiency and reduced maintenance downtime.

Compatibility

Compatible Mill Series

FL Smidth ATOX, Loesche LM, GEBR. PFEIFFER, MPS, RM, CKP, MLS, MPF, TRM, HRM, ZGM, HP
