

Walking Tractor for Agriculture

This walking tractor is a versatile agricultural machine designed for plowing and tilling. It features a compact design with sturdy wheels and adjustable handles for easy maneuverability.

Product Overview

Versatile Agricultural Solution

This walking tractor is a versatile agricultural machine engineered for demanding farming environments. Designed for efficiency, it excels in tasks ranging from plowing and tilling to cultivating. Its robust construction ensures long-lasting performance, while the adjustable handles and compact frame provide superior maneuverability for the operator.

Technical Specifications

Performance Features

1 multipurpose
Operational Versatility

Core Functions

Plowing, Tilling, Cultivating

Construction & Design

Key Design Attributes

- Compact design for easy transport
- Powerful integrated engine
- Sturdy high-traction wheels
- Adjustable ergonomic handles

Durability Rating

Robust Construction • Industrial Grade
