

Wall Mount Halogen Floodlight

This enclosed halogen floodlight is designed for wall mounting. It features a durable housing with a reflective interior to maximize light output and is suitable for security, landscaping, or general area lighting.

Product Overview

Versatile Halogen Floodlight Solution

This enclosed halogen floodlight is engineered for robust wall-mounted applications, offering reliable illumination for diverse professional environments. Designed with a high-efficiency reflective interior, it maximizes light output to provide focused, clear lighting for security, landscaping, or general area illumination. The durable construction ensures consistent performance across both indoor and outdoor settings.

Technical Features

Mounting Configuration	Wall Mount
Light Source	Halogen

Application Suitability

Primary Applications

- Security Lighting
- Landscaping
- General Area Illumination

Environment Compatibility	Indoor, Outdoor
