

Wall Mount Halogen Floodlight

This enclosed halogen floodlight is designed for wall mounting. It features a robust housing for protection against environmental elements and is suitable for outdoor illumination.

Product Overview

High-Intensity Halogen Illumination

This wall-mounted halogen floodlight is engineered for durability and high-performance lighting in diverse environments. With its robust, weather-resistant housing, it is perfectly suited for outdoor security, architectural highlighting, and general area illumination. The integrated reflector ensures optimized light distribution, while the included mounting bracket facilitates quick and efficient installation for both residential and commercial projects.

Technical Specifications

Mounting Configuration	Wall Mount
Light Source	Halogen Lamp
Available Colors	Black, White

Features

Product Advantages

- Robust weather-resistant housing
- Includes easy-installation mounting bracket
- Optimized reflector for maximum light output
- Versatile for security and architectural use

Applications

Suitable Applications

Outdoor Illumination • Security Lighting • Architectural Highlighting • Residential • Commercial
