

# Wall Mountable Air Purifier for Food Sanitation

This wall-mountable air purifier uses advanced technology to sanitize food items. It is suitable for consumer electronics and IT product applications.

## Product Overview

### Sanitation and Air Purification

This advanced wall-mountable air purifier is specifically engineered for food sanitation applications. By utilizing specialized air purification technology, it helps maintain hygiene standards in food preparation environments. The unit features a convenient wall-mount design, a user-friendly control panel, and includes a remote control for easy operation.

## Design & Installation

### Design Features

- Integrated speaker grill
- Ventilation slots
- Sanitation hose connection

### Mounting Type

Wall-mountable

### Control Method

Control Panel, Remote Control

## Applications

### Suitable Applications

Food Sanitation • Consumer Electronics • IT Product Applications
