

Wall Mountable Electric Space Heater with Remote Control

This wall-mountable electric space heater provides two heat settings, 1000W and 2000W, for adjustable warmth. It includes a safety PTC ceramic heating element and overheat protection.

Overview

Efficient Heating Solution

This wall-mountable electric space heater combines a slim, modern profile with practical heating performance for indoor environments. Designed for convenience, the unit features a user-friendly control panel and an included remote control for effortless temperature management. Its space-saving design and aesthetic pink accent panel make it an ideal choice for offices, bedrooms, or living spaces requiring supplemental heat.
