

Wall-Mountable Water Purifier

This wall-mountable water purifier provides purified water for household use. Its design allows for easy integration into kitchens or living spaces.

Product Overview

Professional Household Filtration

This wall-mountable water purifier is designed for efficient household water treatment, utilizing a multi-stage filtration system to ensure high-quality output. Its compact design allows for easy integration into modern kitchen spaces without sacrificing performance. Featuring a 0.01µm filtration precision, it reliably provides purified water at a consistent flow rate for daily needs.

Technical Specifications

Filtration Stages

- PP
- GAC
- CTO
- UF
- Post-AC

Water Source	Tap water
Operating Temperature Range	38
Water Pressure	0.1-0.4Mpa

Performance Metrics

Filter Precision

0.01 µm
Micron Rating

Outflow Rate

2.5 L/min
Flow Rate

Logistics and Dimensions

Container Loading Capacity

Container Type	Quantity (PCS)
20'GP	552
40'HQ	1568

Unit Dimensions (LxWxH)	315 x 100 x 445 mm
