

# Wall-Mounted Automatic Voltage Stabilizer

This automatic voltage stabilizer provides a stable output for sensitive electronic equipment. It accepts a wide range of input voltages and provides a regulated output, ensuring a consistent and reliable power supply.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Voltage Protection

This wall-mounted automatic voltage stabilizer is engineered to protect sensitive electronic equipment from power surges, drops, and fluctuations. It provides a stable power output, ensuring consistent performance and extending the lifespan of connected devices in both home and office environments. With its compact, wall-mountable design and clear digital monitoring, it offers an efficient solution for maintaining power stability.

## Technical Specifications

Model	DVR-2000VA
Input Voltage Range	100-260V AC
Output Voltage	220V AC, 110V AC

## Features & Safety

### Protection Mechanisms

- Overload protection
- Short circuit protection
- Voltage fluctuation stabilization

### Monitoring

Digital Display • Input Voltage Monitoring • Output Voltage Monitoring • Status Indicators

## Design & Installation

Mounting	Wall-mounted
Suitable For	Home Appliances, Office Equipment, Sensitive Electronics
