

Wall Mounted Electric Fan with Rotary Speed Control

This is a wall-mounted electric fan designed for indoor use. It features a protective metal grill surrounding the fan blades and a rotary speed control knob.

Overview

Professional Wall-Mounted Cooling Solution

This wall-mounted electric fan is engineered for efficient indoor air circulation in residential and commercial environments. Featuring a robust construction with a protective metal grill and aerodynamic blades, it ensures reliable performance and longevity. The integrated rotary speed control allows for precise airflow adjustment, making it an ideal choice for offices, homes, and enclosed spaces requiring consistent cooling.

Technical Specifications

Mounting Type	Wall Mounted
Control Mechanism	Rotary Speed Control
Construction Materials	Metal, Durable Plastic

Usage

Recommended Environments

- Homes
- Offices
- Enclosed indoor spaces

Safety & Design

Safety Features

Protective Metal Grill • Aerodynamic Blades
