

Wall Mounted Solar Air Conditioner 24000 BTU

This wall mounted solar air conditioner provides 24000 BTU cooling and 27000 BTU heating. It is designed to save 30%-50% electricity and can run in temperatures from -5 to 53C.

Overview

Energy-Efficient Climate Control

This 24,000 BTU wall-mounted solar air conditioner offers a superior, high-efficiency solution for year-round comfort. By utilizing hybrid solar technology, the unit achieves significant energy savings of 30% to 50% compared to traditional models, all while maintaining powerful cooling and heating performance. Designed for durability and quiet operation, it is capable of functioning in extreme temperatures ranging from -5°C to 53°C.

Performance

Cooling Capacity

24000 Btu/h

Technical Specifications

Noise Levels

Unit	Noise (dB)
Indoor	d50
Outdoor	d58

Power Requirements 220-240VAC, 1PH, 50Hz

Energy Efficiency Ratio (EER) 3.82 W/W

Operating Temperature -5 to 53 °C

Certifications

Compliance CE, ISO 9001, CQC
