

Wall/Window Mount Exhaust Fan

This exhaust fan is designed for efficient ventilation in residential and commercial spaces. It can be mounted on walls or windows and provides effective air extraction to remove odors, moisture, and pollutants.

Overview

Efficient Ventilation Solution

The APB-C exhaust fan is engineered for effective air extraction in both residential and commercial environments. Featuring an aerodynamically optimized impeller, it ensures high airflow while maintaining quiet operation. Designed for versatility, this unit supports both wall and window mounting, making it a flexible choice for removing moisture, odors, and indoor pollutants.

Technical Specifications

Included Components

- Front Grille
- Mounting Hardware
- Terminal Block

Design Features

Quiet Operation • Aerodynamic Impeller • Safety Grille

Installation Method

Wall Mount, Window Mount

Housing Material

Durable Plastic
