

Wall/Window Mountable Exhaust Fan

This exhaust fan is designed for wall or window mounting to provide efficient air extraction. It is suitable for bathrooms, kitchens, and small rooms needing ventilation.

Overview

Versatile Ventilation Solution

This compact exhaust fan is engineered for versatile installation, suitable for both wall and window mounting configurations. Featuring a robust multi-blade impeller, it ensures efficient air extraction for bathrooms, kitchens, and small residential or commercial spaces. The design includes a durable plastic housing with a protective front grille and integrated pull-cord operation for user convenience.
