

Water-Cooled Diesel Generator Set

This water-cooled diesel generator set features a full control panel with power indicator light and emergency shutdown. It is equipped with a large fuel tank to ensure continuous running.

Overview

Reliable Water-Cooled Power Generation

This water-cooled diesel generator set is engineered for consistent and reliable performance in demanding environments. Featuring a compact structure and advanced safety controls, it is designed for easy installation and maintenance. The unit includes a large fuel tank to support continuous operation, making it an ideal choice for sustained power needs.

Technical Specifications

Frequency Options	50Hz, 60Hz
Cooling Type	Water-cooled

Safety & Control

Control Panel Features

- Power indicator light
- Oil pressure indicator light
- Emergency shutdown for low oil pressure
- Emergency shutdown for high water temperature

Operational Highlights

Key Performance Benefits

Low noise levels • Low vibration • Compact structure • Easy maintenance
