

# Water Dispenser with Child Safety Lock

This water dispenser features a child safety lock on the faucet to prevent scalding. It utilizes advanced automotive baking paint technology and offers automatic temperature control for high efficiency and energy saving.

## ADDITIONAL IMAGES

## Product Overview

### Professional Water Dispenser with Advanced Safety

The YS-60LB-4 water dispenser combines high-efficiency temperature regulation with robust safety mechanisms, including a child-safe faucet lock and dry-burn protection. Built with an imported food-grade stainless steel interior, it ensures long-term health and environmental standards. The unit features a spacious ozone sterilization cabinet for high-capacity sanitation, making it a reliable solution for professional settings.
