

Water Pump

This water pump is designed for transferring water. It is suitable for various applications.

Overview

High-Efficiency Water Pump

This portable water pump is engineered for reliable performance, featuring a 140F engine with a 33.5CC displacement. It provides a maximum power output of 1.0KW at 6500R/MIN, making it ideal for various fluid transfer applications. Compact and lightweight, this unit combines durability with excellent flow capabilities for demanding professional tasks.

Technical Specifications

Engine Type	140F
Maximum Power	1 KW
Rated Engine Speed	6500 R/MIN
Displacement	33.5 CC

Performance Metrics

Key Operational Metrics

35 m Lift Height	15 m³/h Flow Rate	8 m Suction Length
