

Water Transfer Pump

This water transfer pump is designed for agricultural and industrial applications. It features a powerful engine, durable construction, and portable design suitable for irrigation, dewatering, and general water transfer needs.

Overview

High-Performance Water Transfer Pump

This robust water transfer pump is engineered for demanding agricultural and industrial applications. Featuring a powerful 4-stroke, air-cooled engine, it delivers efficient water movement for irrigation, dewatering, and general fluid transfer needs. Its durable construction and portable design ensure reliable, long-lasting performance in various work environments.

Performance Metrics

Key Performance Indicators

130 m³/h
Flow Rate

20 m
Lift Height

6 m
Suction Depth

Engine Specifications

Engine Model	GX390
Engine Type	4-stroke, air-cooled, single cylinder
Displacement	390 cc
Ignition/Starting Mode	Transistorized Magneto / Recoil Start
Fuel Tank Capacity	6 L

Physical Dimensions

Inlet/Outlet Pipe Diameter	150 mm
Dimensions (LxWxH)	755x570x710 mm
Weight (Gross/Net)	85 / 82 kg

Logistics

Container Loading Capacity

Container Type	Units
20GP	80
40HQ	160
